

Accredited Environmental Level Calibration Service

Survey Instruments

Pressurized Ion Chambers

Reuter-Stokes Monitors

Technical Features:

- ◆ Independent third party calibration of instruments - all manufacturers.
- ◆ Accredited Cesium beam exposure to 15 uR/h
- ◆ 6 to 9 day normal turn-around, faster service is available.
- ◆ Timely automatic reminder service when re-calibration is due if requested.
- ◆ Meets or exceeds ANSI N323AB - 2013

Experience:

17 years experience in accredited Environmental calibrations.
Regular participant in NIST measurement quality assurance and proficiency test program .

Accreditations:

A2LA -American Association for Laboratory Accreditation
137Cs points from 15uR/h to 600 R/h
M30 - M250 kVCP X-Rays

Quality:

Quality Program accredited to ISO/IEC 17025:2005
Quality Management System satisfies ISO 9001 requirements
Satisfies 10CFR50, Appendix B.
IEEE/ANSI N323AB - 2013
